## Sunteca Plantation Timber Shutters

It is the quality, variety, precision, the finish and attention to detail that results in Sunteca's custom made shutters being so far ahead of the competitors. They really are superior. Sunteca Plantation Timber Shutters come in four distinct ranges so there will be one to suit your home and budget. **All available with the Easy Tilt option which has no visible control.**

**Woodlore - value and appearance** - With crisp, clean colours, Woodlore offers endless decorating possibilities and will provide a distinctive finish to any home. Available in a range of colours and design options, the extremely durable composite wood core is wrapped in a tough poly coating ensuring your shutters can withstand the hard knocks. The character of genuine wood without the expense. Resists fading, staining, splitting, warping and is energy efficient.

**Woodbury - with 100% waterproof option** - Manufactured from ABS man made material the Woodbury shutter keeps looking its best in any climate condition with UV-inhibiting finishes to maintain brilliance.

**Normandy - rustic elegance** - Offers the discerning homeowner an incomparable custom hardwood shutter with distinct wood grain. Enhanced design options make your shutter decisions rewarding.

**Sussex - premium quality** - Crafted by hand from select hardwood and finished with a silky smooth pallet of solid and stained colours, the Sussex range offers the ultimate expression of elegant window furniture design.

**Sunteca Shutters** offer a selection of louvre sizes with varying aspects of view, light, ventilation and privacy with multiple stile options to accommodate different window designs. Many variations available including fixed, hinged, bi-fold, bypass track systems and special shapes.
