## Sunteca Production, Outdoor Blinds

We pride ourselves at Sunteca in always looking at "Better Ways" to produce the many different product lines that we offer to our Customer Base.

We have invested heavily in our Outdoor Blinds & Awning department over the last 12 months. Introducing state of the art cutting tables, sewing machines and just recently 2 Italian built 6m thermal welders for mesh fabrics and PVC.

Sunteca is committed to introducing new products to our Customers.

The Outdoor Blind market is an area where we see good business opportunities for Sunteca and you our Business Partners.

For further details contact,  
Coby Hewitt 0498 015 445 or  
Joe Clarke 0406 383 947.

# Sunteca

## New Product, 63mm Slats for Creation Blinds

Sunteca is delighted to release a 63mm slat size to the Creation Timber Blind program. They are available in two colours, Arctic Breeze and Autumn Dusk.

Creation Blinds offer an excellent alternative to timber blinds and even timber shutters. They are resistant to fading, peeling, cracking and warping. They are designed for durability and are perfect to meet the demands of our harsh Australian climate.

## New Pricing

All customers should have received our new competitive price lists over the last two weeks. Many price reductions have been applied for Roller Blinds, Vertical Blinds and Venetian Blinds to support our customer base in this competitive market. Please contact the Sunteca Sales Office for further information  
08 9455 1577

## Fabric Grouping

Sunteca has consolidated its fabric price groups enabling ease of reference for our customer base. The industry leading Dulux Elegance and Sunshadow fabric ranges have actually reduced in price. This gives you our customers a quality Blockout and Screen fabric second to none in the market.

Please take time to peruse the new fabric pricing groups of our extensive Industry Leading Range of fabric held here in WA.

# Horizon Rollers and Panel Blinds Hit the Market!

# Reading Between The Blinds

May 2016

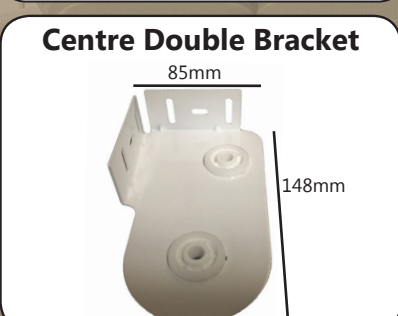

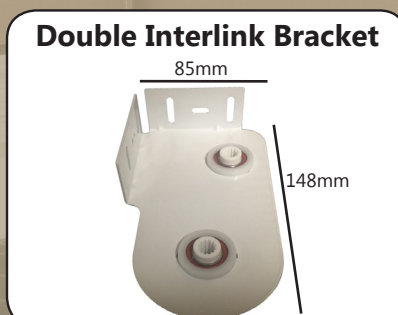

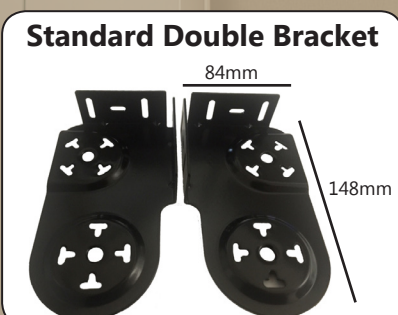

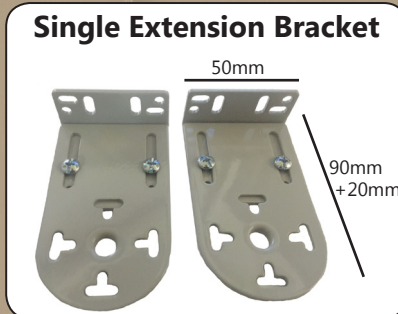

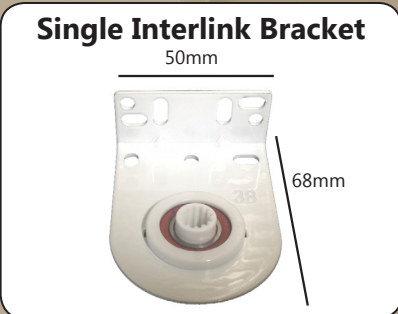

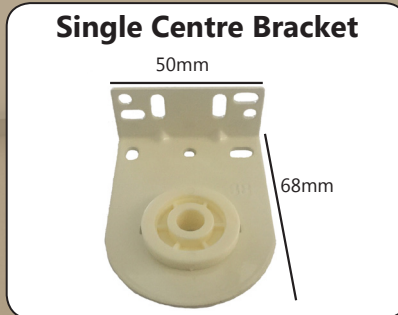

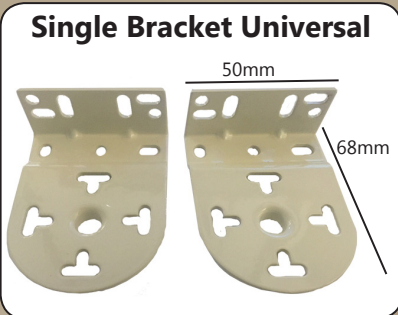

## Horizon Roller Blinds

On the 1st of March 2016 Sunteca released its new Roller Blind system to the market. The move to introduce this system has been a resounding success with record production figures being generated in the roller blind department. Many new customers are now ordering and utilizing the many features and benefits of the Horizon system.

Below are photos and dimensions of the extensive range of Fixing Brackets on offer with the Horizon Range. We are confident that this program will ensure ease of installation for all applications.

Horizon Roller Blind Brackets

**Don't forget our matching end caps available for face fit!**

## Sunteca Panel Blinds

Sunteca has also released its new Panel Blind System to the market on the 1st March 2016.

The response has been Fantastic! Many customers have contacted the Sunteca office after installation and praised the many features of the system. Probably one of the most pleasing aspects is the feedback from the installers.

All you have to do is, Fix the Tracks, Clip/Push the Panels into the pre-set Carriers and Stops, "Job Done!" All panels are numbered so no messing around on site, (a computer generated installation diagram is supplied with each order)
