SIMPLICITY

Wand Operation

A single wand allows you to simply tilt the blades for light control and slide the blind open or closed with one hand.

Cord & Chain Operation

Traditional operating system, using a cord to draw the blades across the track and a chain to rotate.

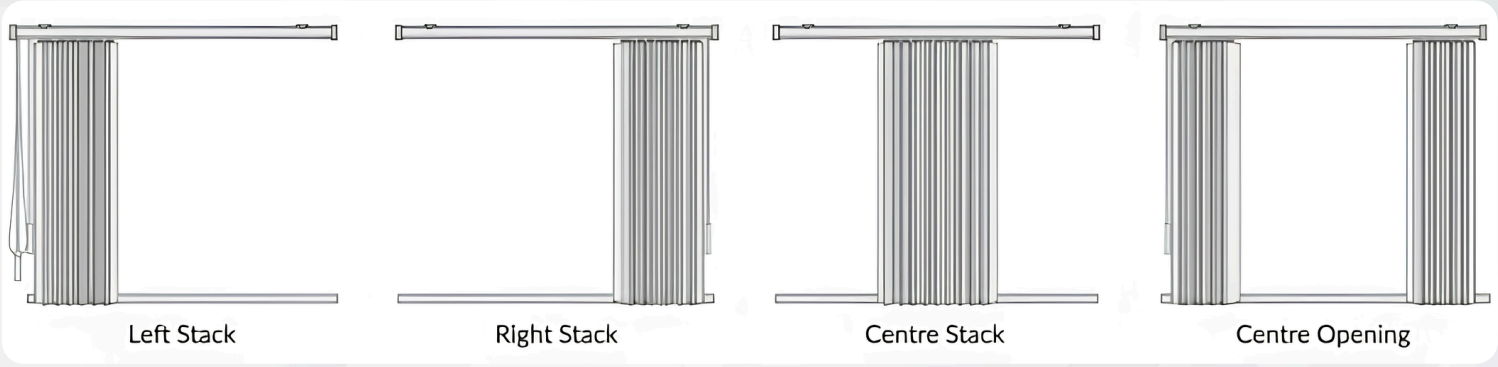

VERSATILITY

The Slenderline Track blends modern aesthetics with seamless performance. Its removable J-peg enhances functionality and simplifies maintenance. Designed for smooth operation and a sleek look, it features a fabric insert that matches the décor, making it suitable for both contemporary and classic spaces. The Slenderline V40 offers versatility, elegance, and reliability for any environment. Discover quality and style with Sunteca's innovative designs.

Track Configuration

Choose from left Stack, right stack, centre stack, centre opening options to perfectly frame your view and suit sliding doors and windows

Blade Sizes

Choose from 63mm, 89mm, 100mm or 127mm widths to control the scale of the aesthetic.

Bottom Weights

Weights & Chains | Chainless | Sewn-in Weight

WHY CHOOSE US ?

Sunteca (WA) Pty Ltd is a family-owned business based in Canning Vale, WA, proudly manufacturing blinds for over 52 years. Sunteca began wholesaling in 1991 and now serves wholesale clients across Australia.

We committed to delivering top-quality products and exceptional service, backed by a dedicated team of professionals.
